"Amnesty" for Massachusetts Taxpayers

Gary Bubb, Esq.

by **Gary Bubb**

Massachusetts taxpayers will have the benefit of a two-month tax amnesty during September and October of 2014. The tax amnesty bill was signed into law by Governor Deval Patrick on July 11, 2014 as part of the state's 2015 fiscal year budget. The bill directs the commissioner of revenue to work out the details, and the Department of Revenue ("DOR") will shortly be publishing a Technical Information Release containing full information about the amnesty. An "FAQ" about the amnesty will also be added to the **DOR's webpage**. Click **here** to read more.

#Hashtag Headaches… Employee Rights In A Social World

by Joe N. Magner

ABC Lobster is a fictitious restaurant with an award-winning lobster roll. Unfortunately, despite its success, the restaurant has real issues managing inventory. Three times over the past month ABC Lobster has failed to order enough lobster meat to make lobster rolls. ABC Lobster's wait staff has lost significant tips when the lobster roll is off the menu. The wait staff expressed its concerns at a staff meeting. However, the problem continued. One night a waiter, let's call him Alex, had enough. Alex tags a photo of ABC Lobster's menu to his personal Instagram page stating "ABC Lobster…the most unorganized restaurant in town…trust us we work here" #sloppy #Wheresthelobster @ABCLobsteremployees @ABCLobster. Over the next two days, five other employees "Like" Alex's post and two employees post comments in support. Can ABC Lobster fire Alex for creating this mess? *Probably Not.* Here's why:

The National Labor Relations Board (the "NLRB"), established through the National Labor Relations Act (the "Act"), protects, in part, the ability of employees to participate in a "concerted activity." A concerted activity protects the rights of employees to act together to address issues such as pay, benefits and working conditions. The NLRB will prosecute employers who wrongfully discharge employees who participated in a concerted activity. A concerted activity, by its very definition, must be made for the betterment of a group of employees, not by one employee for his/her own personal gain. The Act was originally passed by Congress in 1935. Obviously a lot has changed over the past 79 years. The NLRB has recently been forced to interpret the intent of the Act as it relates to employees' use of social media. The first of such decisions were handed down in 2011 and the NLRB has been refining its position ever since. **Click here** to read more.
